

Pork Butt Weekly Write-Up

Intro

Great googly moogly what a week for special teams. Blocked punts, returns, great punts, overall nice to see for a change.

Bears hosted the Cowboys this week and dismantled the Eberflus defense as Da Bears destroyed the Cowboys. Vikings did not disappoint as the Burrow-less Bengals found out what it meant to lose by a fuck-ton. Meanwhile, in Seattle, the Seahawks beat the shit out of the Saints (seriously, this game was bad for the Aints).

Now for the unfortunate teams that saw defeat this week. The Raiders could not hang with a Mariota-led Commanders team as they lost by twenty-three. G-men figured out that the Russ Wilson experiment was a bad idea as they were a bounce back game for the Chiefs. Packers lost to the Browns. Yes, those Browns, need I say more?

Game of the Week

Sky v Chaka

Well, the game had the potential for serious fireworks, and in some aspects, they delivered. However, it was not the show I was expecting. Chaka did jump out to a lead at the half, but it was short lived, like a fart in the wind. Sky flipped my projection (Chaka +25), throwing the hammer down he cruised to victory 151-121, handing Chaka his first loss of the season.

Snore of the Week

Andrew v Brandon

Brandon led this game from stem to stern. Andrew battled, but his injury riddled roster was not enough (Jordan Love's eight points did not help much) to compete in the end. Brandon won, but the team still has some questions (WR & RB) moving forward. The final of this one was 110-74.

Matchups

Jake v Dave

Stellar play by Williams (thirty-six), and averages met by others gave Dave a slight advantage at the half. Then, Lamb went down due to injury, laying a fucking zero egg and cursing the team. Jake had this one wrapped up after the third quarter, and cruised to a 128.5-110.5 victory, handing Dave his first loss of the season.

Mike v Dino

This was a game. Back and forth they battled. Heading into the fourth quarter, Mike had a double-digit lead, but Dino had Gibbs going against a suspect Ravens defense (they seem to slip in crucial moments) as Gibbs put up 26, giving Dino the comeback win and edging out Mike 114-107.5.

Rich v Jason

Well, I called this game a ho-hummer (but not a snore) as the game went how I figured. Rich scored often and early and had Jason up against the ropes. The whistle blew, and the teams headed into the locker room at half. Coming out, Jason started scoring and did not look back as he finished the victorious game, 183-144, keeping Rich winless this season.

Next Week

Jake v Mike

Mike is the projected winner according to RSO (Mike 23-point favorite). Looking at the week four records, and current numbers, I must agree with this, however, I am going Mike by five.

Sky v Brandon

Tough matchup for Brandon as Sky is starting to score at will now. I am going with Sky on this matchup as he continues his winning streak. RSO believes Sky will be victorious as well.

Dave v Andrew

This is a tough one to project as Andrew is dealing with injuries, and Dave is down a major scorer this week (FUCK YOU LAMB). However, playing the historical numbers, Dave has a decent week four record. RSO projects Dave will win, albeit by one point. I do believe this will be a close game, and I have a feeling Andrew breaks into the win column (FUCK YOU LAMB).

Jason v Chaka

Two questions here are: can Chaka bounce back after his first loss, and can Jason keep the scoring going? I believe Jason is going to cruise in this one (seriously, he is putting up excellent numbers), and RSO believes me (or is it the other way around?), as they have Jason by seventy, I do not think it will be that much, but Jason wins here.

Rich v Dino

This is another tough game to predict. Rich is winless not to a lack of scoring (third best offense in the league), but Dino is good at making a comeback. RSO and I believe the same here, Rich gets his first win.

Playoffs

Fuck off with that, it is too early. However, we are getting close to getting those projections out!

The Sack

The race for the best hat on Earth has begun, and these teams are leading the way.

Mish Picks

CORRECT	INCORRECT
4	6

Man, I thought had some good picks last week, however, the truth is in the pudding. Still under .500, but I am sure that will change over the next part of the schedule, The Grind!

Final Handy

Three teams entered this week undefeated, but only one undefeated remains. Injuries continue pestering teams as we saw several key players go down, and not in a good way. We are the in the final week of The Honeymoon, so enjoy it while you can, The Grind is coming, and I have a feeling it is going to be a stressful part of the season. With that, may your beer be cold, Karma finds you today, and fuck your team....’mish out.
